Bronny Bear

Bronny Bear

The adventures of Bronny Bear are fun, fantastic and exciting tales from the everyday life of a young bear. Bronny lives in Bear Forest with Mummy Bear, Daddy Bear and his little sister and happily attends Bear Nursery School. But it isn't all sweet honey pots and idyllic family life for the little bear. The two troublemakers Ivan and Hugo have nothing better to do than play tricks on our friend Bronny.

But the little bear has a secret friend. His name is Magic Blue and at first glance he looks just like a common blue scarf. But when no one else is looking, Magic Blue comes to life, develops a face and character, talks and laughs with Bronny and becomes a visualized fantasy. Furthermore, he can

transform himself into all sorts of shapes and objects to give aid and comfort to Bronny and help him deal with those pests Ivan and Hugo - and have fun doing so!

The Bronny Bear stories are self-contained episodes of 5-minute lengths for small children in plasticine model animation (stop-motion).

The stories reflect the world of childlike imagination and experience. In Mummy Bear and Daddy Bear the children recognize their own parents, in Baby Bear their own siblings and in Bronny they see themselves. In Ivan and Hugo, on the other hand, they find their opponents, the rivals that are an important part of every child's life.
