Big Ben

Chief Investigator Benno's mom Resi is on vacation in Mallorca and runs into a friend from home, Hasi, the fiancé of construction engineer Rambold. She is looking after Rambold's projects on the island. Suddenly, the women are kidnapped on a country road and taken to a hideout in the mountains. Hasi was the real target, and the kidnappers are now demanding that Rambold pay a ransom of €1,000,000 for her to be freed.

Benno and Rambold decide to ignore the local police and send Benno's colleague Nadine to investigate. A hot trail seems to be a former business partner of Rambold who lives on Mallorca and has recently and mysteriously lost his wife. The showdown leads Nadine - equipped with a cell phone and satellite images sent to her by Benno - into the mountains of Mallorca...

Back home, Benno tries to solve another crime: the politician Meidenbauer is shot. Because Meidenbauer had been fighting for the construction of a highway in Berlin, Benno at first believes an environmentalist was behind the assassination attempt...
